Executive Summary

Wesley Bradley Paul Group (WBPG) is a new business consulting firm founded by Omar Paul Strohm in Altoona, PA. The website serves as the primary digital presence for a practice focused on practical, no-fluff strategic advisory for growing companies facing operational plateaus.

The site emphasizes clarity, accountability, and measurable execution over theoretical frameworks. It positions Omar's 20+ years of public-sector finance, labor relations, and municipal leadership experience as directly transferable to private-sector challenges.
